

Suspended Canopy Systems

Designed for style and functionality, our suspended canopies provide excellent protection from the elements without the need for columns or foundations.

Enhance an entryway. Cover a loading dock. Protect an exit door. No matter what your requirement, we have a solution. Perfection has a suspended canopy system to fit the most demanding project requirements. Made from durable extruded aluminum, our soffit deck and

internal gutter beam system is engineered to withstand the loads mandated by your local building code. Configurations are customizable and made to order. Whether you are looking for a standard support arm or a hanger rod system with decorative support brackets, we can customize a design and build a suspended canopy to fit your specific project requirements. Available in standard and custom finishes. Contact a premier design team member to discuss your project.
